

CATALOG OF SERVICES - PRICE LIST

Publication date – 10.09.2025.

The Price List is an integral part of the User Agreement of «PRO DATA TECH» LLP

VIRTUAL SERVERS (KZ-1)

Name	Cost per month, KZT
Processor core vCPU, 1 pc.	2 490
RAM, 1 GB	1 470
Basic disk (350/130 IOPS, 110/110 MB/s), 1 GB	55
Fas disk (7 700/4 400 IOPS, 220/220 MB/s), 1 GB	100
Performance disk (27 500/7 500 IOPS, 500/400 MB/s), 1 GB	140
IPv4-address, 1 pc.	950
Automatic backup, 10 GB in hard disk	280
Additional internet connection speed up to 1 Gbps, 1 Mbps	1 500
Additional internet connection speed from 1 Gbps, 1 Mbps	1 200

Remarks:

- «PRO DATA TECH» LLP does not provide telecommunication and data transmission services. Connection to the Internet is provided by superior telecom operators. «PRO DATA TECH» LLP makes payment for the specified services to telecom operators, the Customers compensate these expenses to the Contractor.
- The tariff for backup implies the cost of storing 1 backup copy.
- All virtual machine configurations located on availability zones KZ-1 are by default connected to the Internet network at the speed of 100 Mbps.

MANAGED KUBERNETES (KZ-1)

Name	Cost per month, KZT
Basic (1 master-node x 2 CPUs / 4 GB RAM / 20 GB SSD)	9 000
Basic HA (3 master-nodes x 2 CPUs / 4 GB RAM / 20 GB SSD)	36 000
Standard (1 Master Node x 8 CPU / 16GB RAM / 50GB SSD)	24 000
Standard HA (3 master nodes x 8 CPUs / 16GB RAM / 50GB SSD)	76 000
Advanced (1 Master Node x 16 CPU / 32GB RAM / 100GB SSD)	100 000
Advanced HA (3 Master Node x 16 CPU / 32 GB RAM / 100 GB SSD)	315 000

Remarks:

- HA means High Availability of the system ensuring its uninterrupted operation and minimal downtime.
- «PRO DATA TECH» LLP does not provide telecommunication and data transmission services. Connection to the Internet is provided by superior telecom operators. «PRO DATA TECH» LLP makes payment for the specified services to telecom operators, the Customers compensate these expenses to the Contractor.
- The cost of Worker Nodes is calculated on the basis of virtual servers tariffication.
- Only fast disks are used in Managed Kubernetes.

LOAD BALANCER

Name	Cost per month, KZT
Load balancer (2 instances) (34 000 HTTP RPS, 9 000 HTTPS RPS)	12 000

All prices listed above are exclusive of VAT. VAT will not be charged.

CLOUD OBJECT STORAGE (KZ-1)

Name	Cost, KZT
Storage cost per month, 1 GB	17
Cost of download, 1 GB	12
PUT/COPY/POST requests, 1 000 pcs.	3
GET/HEAD requests, 10 000 pcs.	3

Remarks:

- In addition to the volume of objects themselves, the total storage volume also includes the volume of metadata generated when working with the platform (e.g., object lists, lists of bucket lists, etc.).
- PUT/COPY/POST and GET/HEAD requests are temporarily not charged.

CLOUD BACKUP STORAGE BY VEEAM AGENTS (KZ-1)

Name	Cost, KZT
Backup of 1 virtual machine, pcs.	290 000
Repository space, 50 GB	39 500

Remarks:

- The above tariff applies only if you purchase a «PRO DATA TECH» LLP Infrastructure subscription for a one-year term.
- The tariff has a limit of 1 task at a time.
- The tariff limits incoming network traffic to the repository to 100 Mbps.

All prices listed above are exclusive of VAT. VAT will not be charged.
